

AQUAmate™
Implies Reliability & Innovation

about

Water is the most versatile substance on our planet. It appears in many different forms. No matter it appears as a gently flowing mountain stream, high waves breaking on the seashore, heavy rainfalls or just drizzle from the sky, water always arouses our senses. Since the very beginning, AQUAmate's sanitary products have been designed for enjoyment and relaxation by bringing all those refreshing senses of water to your home.

In the market, the name AQUAmate implies reliability and innovation. Our products are well known worldwide for their innovative designs and high product quality. As a highly recognized supplier and manufacturer, we are expanding our retail network in China. As water keeps marvelously changing its forms, say from a little droplet to a majestic river or from a geyser to thick clouds, so is the commitment of AQUAmate in enhancing life-style experience with new designs and innovative ideas.

Milestone

1990 to 2000

Company Established

Facilities Development

- 2 shower head assembly plants, mold tooling and plastic hose factories

Product Development

- 10 products patented in UK, US, Germany, HK & China (design & device)
- First launched shower functions including Mist, Safety Lock in Mist & Massage Vibration

Certificates & Attainments

- Member of Water Quality Association, USA
- Plumbing Safety License, CSA, ASME & ANSI, TÜV Rheinland, ISO 9002

2001 to 2010

Product Development

- Over 100 products patented in UK, US, Germany, France, Denmark, Sweden & China

Facilities Enhancement

- Plastic Plating, Mold Fitting Machinery, Metal Hose & Accessories Plants

Certificates & Attainments

- ISO9001, ISO14001, OHSAS 18001 Certificates, ACS
- In-House Laboratory certified by IAPMO, CNAS and TÜV
- SA8000 Certificate

2011 to Now

Product Development

- Over 85 Products patented in US, EU & China
- ADA shower head series, chrome faceplate, LED shower heads & shower heads with ameliorated vibration function

Facilities Enhancement

- Plants for manufacturing Shower Enclosures, Shower Cabinets, Massage Bathtubs, Bathroom Furniture & LED Lightings
- Glass Factory
- Spraying Facility
- New Chrome Plating Factory

Distribution

- Sales network in China

Certificates & Attainments

- CE attainment for Shower Enclosure Products

Our Mission

To be a leading sanitary ware manufacturer providing innovative, stylish and high-quality products for our global customers.

Management Board

Mr. Jason Chan & Mr. Hans Lee
Executive Vice President & President

The Group has been expanding steadily for more than 24 years under the leadership of the 2 directors who have strong engineering and manufacturing background and are highly involved in product development and daily production activities.

Our Strengths

- Over 24 years of solid experience in the hydraulic body care industry
- One of the largest manufacturers and exporters of shower heads in China
- Highly vertically integrated production process ensuring stable product quality and reliable delivery
- Strong product development capability ensuring continuous creation of new products with innovative designs and features
- A wide range of bathroom products
- Good customer service with strong technical support
- Major original equipment manufacturer for many international brands evidencing our ability and commitment in meeting high quality standards
- Well developed production line with high production capacity and flexibility to entertain ad hoc projects
- OEM / ODM / JDM capability

Group Structure

We have a sales office in Hong Kong, 8 factories and a retail sales network in China. The highly vertically integrated set-up ensures our self-sufficiency in the production process and reliability in product quality and delivery.

Office in HK

The Hong Kong office houses the Sales and Marketing Department with account managers and merchandising and engineering teams providing customer service in a professional and efficient manner. They are capably supported by the product design team which continuously initiates creative product designs to meet the changing needs of the market.

Your Reliable Business Partner

Being a leading sanitary ware manufacturer providing innovative, stylish and high-quality products to our global customers for more than 24 years, AQUAmate is well-positioned to serve you and is ready to be your most reliable business partner.

Our Facilities

We have 8 factories in China undertaking production of product parts and accessories, product assembly, electroplating, and manufacture of toolings and machinery for our own use.

Shower Head Assembly

Shower Head Assembly

Plastic Plating

Glass Processing

Mold Fitting Machinery Production

LED Lightings Production

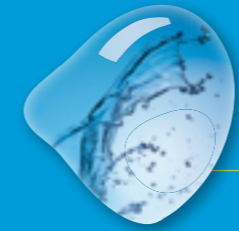

Hose Production

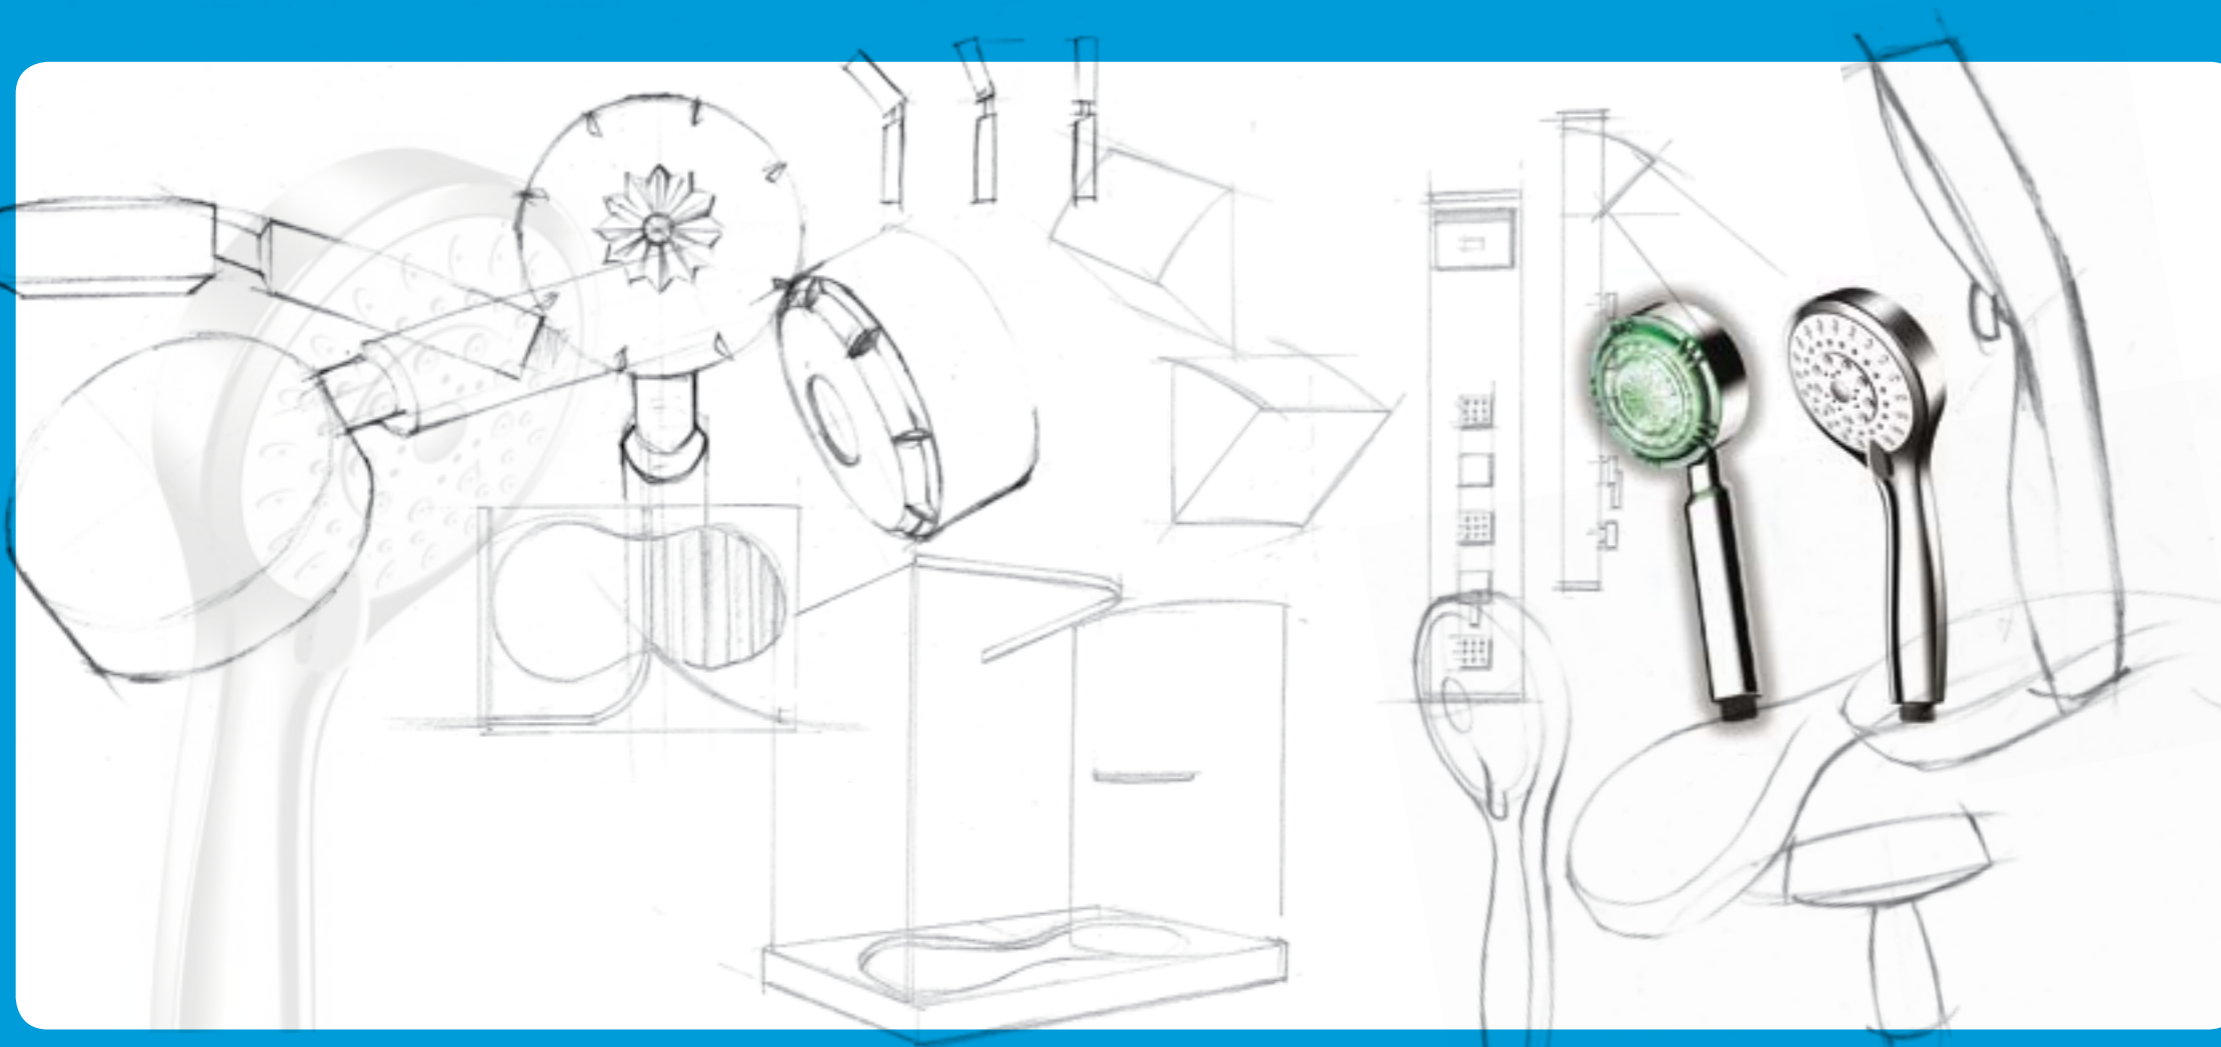

Production of Shower Enclosures, Shower Cabinets, Massage Bathtubs, Bathroom Furniture

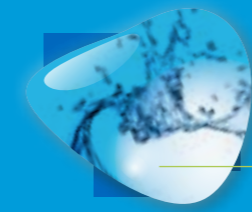

Our Capabilities

Product Design

Our professional product designers are strongly equipped with the skills to bring products from conception to market. Our success in continuously introducing new products with stylish, trendy and innovative features to the international market is due to our close communication with international customers to understand their needs and our substantial efforts in market research and our active participation in trade fairs and exhibitions like KBIS and ISH to gauge development directions.

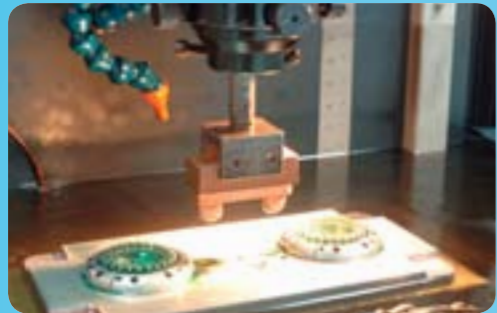

Our Capabilities

R&D Backed up by a well equipped tooling workshop, our strong R&D team, with over 50 qualified and experienced engineers, provides professional engineering design for products. Since 1990, we have patented over 200 products in various countries.

Tooling Workshop

EDM Machine

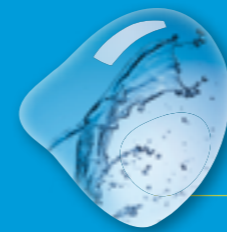

CNC Machine

R&D Team

FDM Machine

Our Capabilities

Production

We produce a full spectrum of bathroom products covering shower heads, shower panels, shower accessories including hoses and rails, shower enclosures, shower cabinets, bathtubs, massage tubs, bathroom furniture and LED lightings etc.

Shower Enclosure

Powder Coating

Glass Grinding

Profile Cutting

Assembly

Glass Tempering & Curving

Easy Clean Treatment

Tray Formation Oven

Glass Cutting

Shower Head

Assembly

Machinery

Plastic Plating

Hose Machine

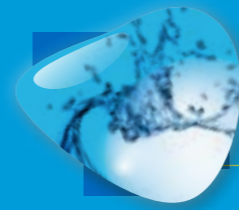

Double Injection Machine

Single Injection Machine

Hot Plate Welding Machine

Our Capabilities

Quality Control

AQUAmate's quality control system has the certification under ISO9001 governing the whole production process from checking of incoming materials to loading of assembled goods into a container. Our product testing laboratory has been accredited under ISO 17025 (TÜV Rheinland) and has been certified by China National Accreditation Service For Conformity Assessment (CNAS) for the shower and hose testing. Additionally, it is accepted by IAPMO Research and Testing, Inc. as an independent In-House Testing Laboratory with the testing results having its recognition. The accredited testing scope of our laboratory can satisfy nearly all the needs of our customers.

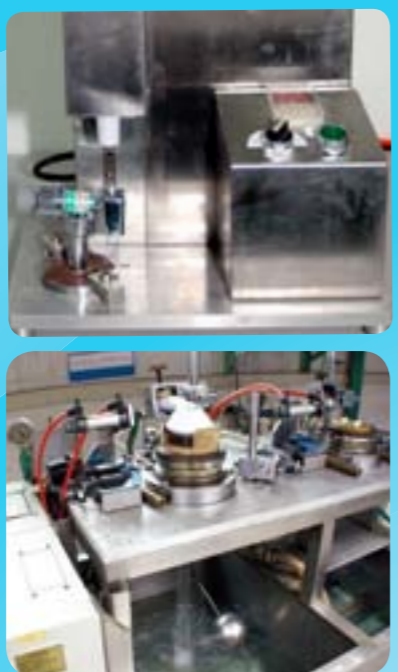

Flow Rate Test

Flow Rate Test for Australian Standard, Measurement of Flow Rate for Product, etc

Mechanism Life Test

Bracket Life Cycle, Control Ring Life Cycle, Spray Force, etc.

Finish Test

Salt Spray, Coating Rub Test, Thermal Cycling, etc.

Multi Function Test

Cycling Pressure, Burst Pressure, Leakage Test, etc.
